

I-15 Tropicana Project

Las Vegas Stadium Authority

May 23, 2019

All information presented is preliminary and subject to revision

nevadadot.com

Origins of the Project

In 2009, NDOT embarked on the I-15 design-build south project between Blue Diamond and Tropicana

We realized that Tropicana would eventually become a bottleneck challenge

When that project was completed in 2012, we immediately began a feasibility study on the Tropicana Interchange project

When the study was finished, we began the National Environmental Policy Act (NEPA) process

I-15 Tropicana Project

Project Milestones

Project Location

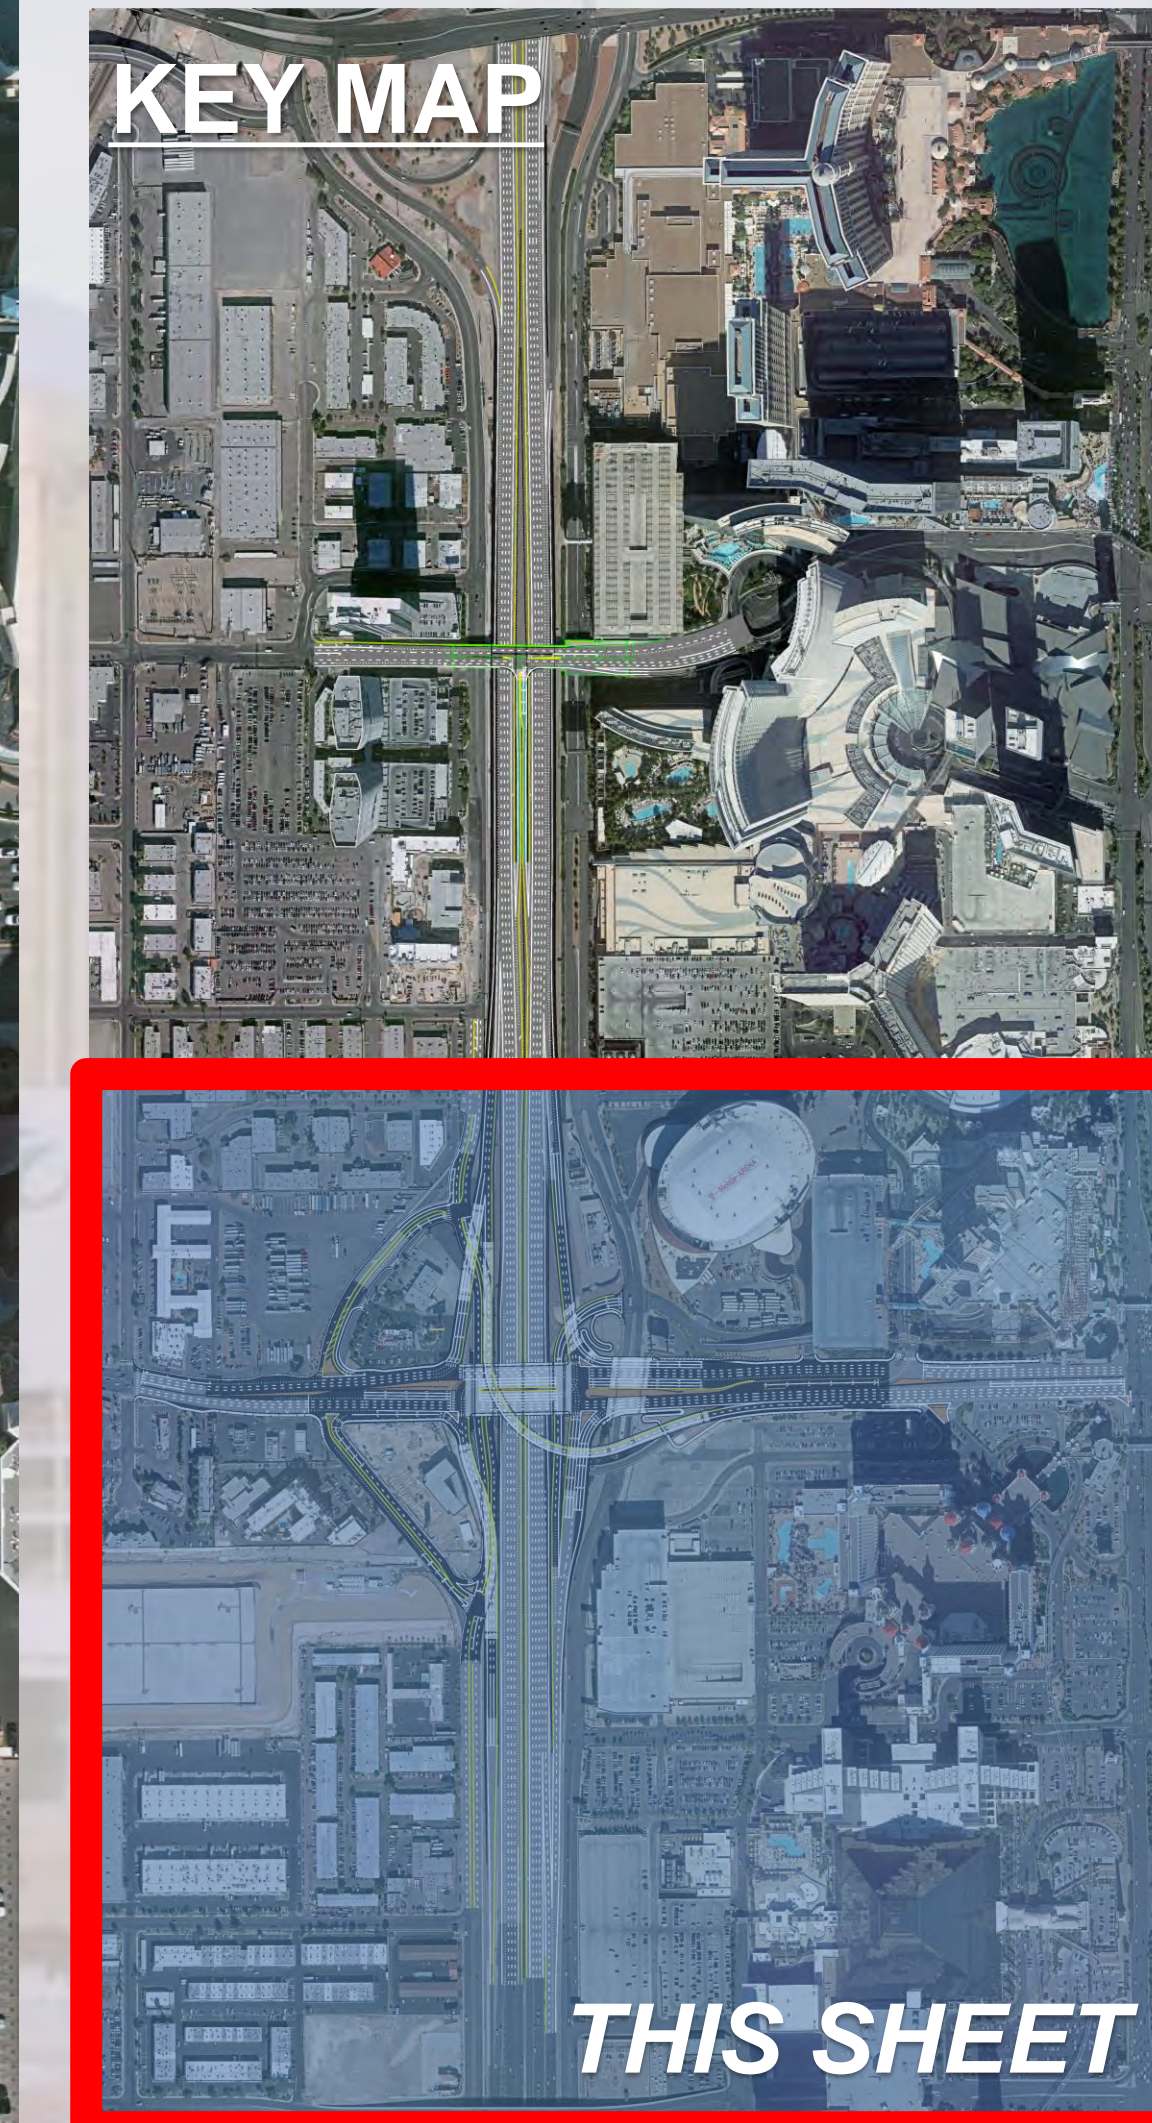

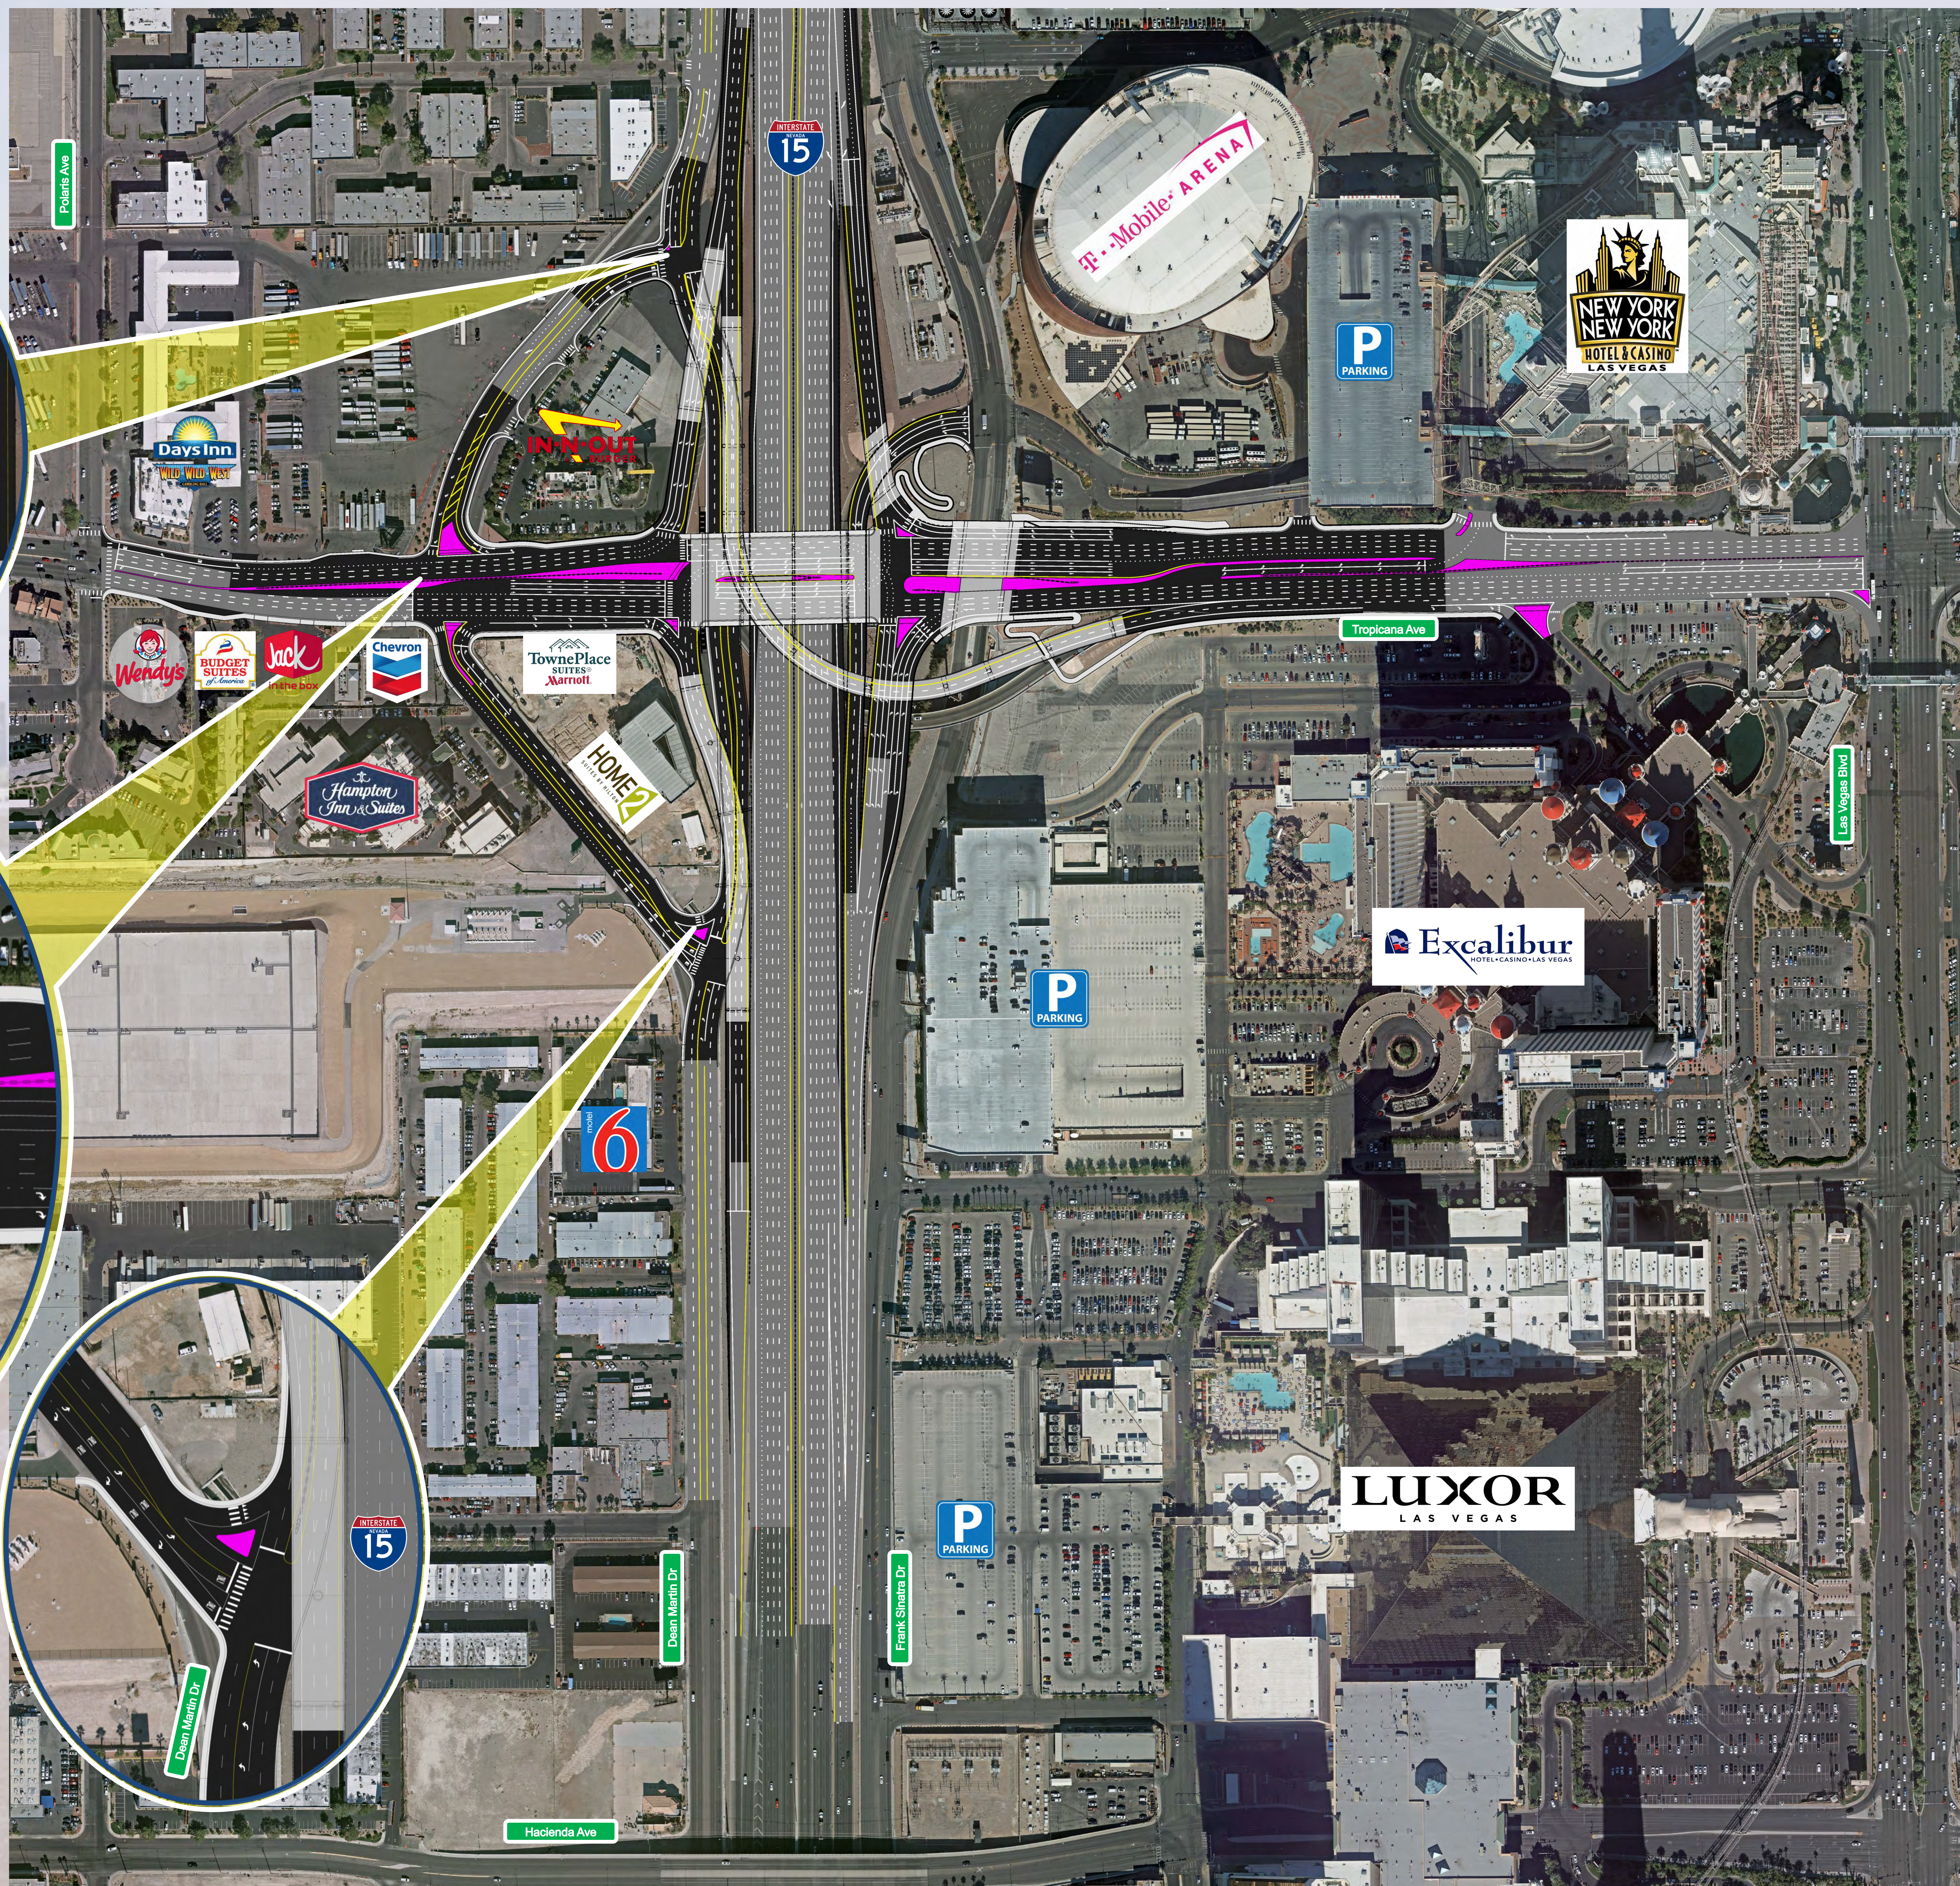

LEGEND

- HOV Ramps
- I-15 and Tropicana

Proposed Improvements

LEGEND

	New Pavement
