Monthly Report - March 2020

 **allegiant stadium**

LV Stadium Events Company, LLC

April 30, 2020

Mr. Steve Hill
Chairman
Las Vegas Stadium Authority
c/o Applied Analysis
6385 S. Rainbow Blvd, Ste 105
Las Vegas, NV 89118

Dear Mr. Hill:

Enclosed is StadCo's monthly Project Status Report covering the development of **allegiant stadium**.

Despite the severe impact of a global pandemic, the Stadium's construction remains on track for substantial completion on July 31, 2020. The Project also remains within its budget.

In addition to implementing the CDC and OSHA guidelines for reducing the transmission of COVID-19, the Design-Build contractor is actively exploring the possibility of instituting wide-scale virus testing among the construction workforce. This will be challenging since the on-site construction workforce typically consists of 2,000 or more people per day.

The outstanding culture of job-site safety, with reportable incidents running at about one-third the national average, continues.

We have made adjustments to the transportation and delivery plans for select critical components in order to avoid delays caused by global supply chain interruptions.

Clark County has committed to provide uninterrupted support for plan review, permitting and field inspections. We are, however, attempting to overcome challenges to the furniture and equipment installation schedule resulting from special County Department of Building & Fire Prevention requirements. We hope to overcome these *ex cathedra* requirements in order to avoid delaying the use of the Stadium following the completion of construction.

We continue to far outperform the SBE contracting goal (24% actual versus 15% goal) as well as workforce diversity goal (62% actual versus 38% goal) and more than 75% of both contractors and construction workers have been Nevada residents.

Sincerely,

STATUS OF DESIGN PLANNING

To date, HNTB and the AE Team have reviewed a handful of spaces for punch-list. The process is still being refined and is now scheduled to move forward in earnest toward the end of April. In March, SSR's Cx team began the first steps in the commissioning process for the mechanical, electrical and plumbing systems within the building. This will carry on through May and likely into June.

HNTB and the resident members of the AE Team relocated to our new, and hopefully, final field office location. The AE Team is fully operational and our network is established to support the project. The AE Team is adjusting to no longer being co-located with MMcJV (as we have been for the past year).

In terms of design activities, HNTB and the AE Team continue the implementation of infrastructure to support sponsorship integration at select locations within the stadium. There continue to be a steady flow of RFQ's related to additions/modifications to the base building design – primarily to accommodate sponsorship elements.

Permits received to date include all foundations (Package 2), and all concrete construction permits (Packages 3A & 3B) and the structural steel frame package (permit package 4). All structural building permits for the project are now secured. Non-structural permits received include the Shell, Core and all non-premium spaces (Package 5). Premium spaces – clubs, typical suites and select Team spaces (Package 6).

COMPLIANCE / SBE

In accordance with Section 31.5-6 of the Southern Nevada Tourism Improvement Act, Mortenson | McCarthy Las Vegas Stadium, A Joint Venture (“MMcJV”) is following the process described below for verification of SBE Contractors.

SBE Contractors apply through the mmcjvlv.com website under the vendors tab. Those seeking certification as a qualified SBE contractor will then fill out and submit a self-certification form, whereas they attest to meeting the criteria for small local business classification denoted in the Senate Bill. The MMcJV Community Benefits Coordinator then reviews the information provided and utilizes the Nevada Secretary of State website: <https://www.nvsos.gov/sos> to verify the Act’s requirements 31.5-2 section a, b, & c in regards to principal place of business, duration of business license, and that the required business license is current. Upon approval of these criteria, MMcJV will then give the contractor the designation of SBE. If firms do not meet the criteria or don’t complete the process, they are not classified as SBE. A listing of all approved SBE’s, or any of the above records can be provided upon request.
