Hi

I went to the Illenium, Garth Brooks and Rolling Stones concerts- I enjoyed all of them the Rolling Stones the most. I wanted to make sure the board was aware that the Stones reported boxscore ticket gross was their highest ever and also the highest single band single event in the world last year. Not including Mandalay Bay was charging \$825 a night. This just shows how important keeping the building busy with events is for community benefit and economic development. If the building is dark it is a big economic loss for the city. So hope you work hard to keep bringing events.
